

Calculating Stitch Multiples

FORMULA

r = Stitches in the pattern repeat

n = Number of times you repeat the pattern (any whole number)

t = Extra stitch for turning/edges

Formula: $r \times n + t$

EXAMPLE

n = 5 : $8 \times 5 + 1 = 41$ stitches

n = 10 : $8 \times 10 + 1 = 81$ stitches

YOUR CALCULATIONS

r	
n	
t	

$\times$ $+$ $=$ stitches
